## CAREER OBJECTIVES

I want to work in an exciting environment where I can keep learning and improving my skills. I'm eager to face challenges that will help me grow personally and contribute to the success of the organization I'm a part of.

## PROJECT

### IOT based robotic project (ESP32-Racing car)

In my project, I developed a Bluetooth-enabled robotic car capable of wireless communication and data transfer. It can accept instructions in any language, making it versatile and user-friendly.

### Amazon clone (using HTML, CSS)

In my project, I created Amazon's pioneering e-commerce website from scratch. I utilized the foundational technologies of HTML, CSS, and JavaScript to establish a user-friendly and responsive platform, making online shopping a breeze.
